ABSTRACT

We all belong to One Spirituality or one Religion i.e. "I" but with different Rituals and worships calling it Unification of Spirituality or Religions. Hence teaching regarding God in different religions (Hindu, Islam and Christianity etc realizations) are illusion. They donot teach about Two God Particles – The Real eternal God Particles. Religion "I" means Worship of IDOL of Two God Particles. It Persists Even After Destruction Of Universe. I am the origin of All. Every thing evolved from Me – 10/8. Say With Proud "I" am Idol of TWO God Particles or Satyam Shivum Sundarum. All religions do IDOL worship of Two God particles in different ways. Unless brain sees idol of two God particles during worship Fig 15 and Fig 19, worship is incomplete

1.2 Mind and Mass Realities [2]

Atomic genetics is the branch of science where we investigate about fundamental interactions of the universe i.e. atomic transcription and translations. New words have been coined to understand hidden science of mind part of reality. Mind reality has been recognized as different faces by "I" about 5000 years back to Arjuna in Mahabharata as shown in Fig 1. It is just like to understand any language through Alphabets. These are

(different faces) Alphabets of mind reality. One Mind reality has one face identity and the second mind reality has second face identity and so on. The facial expression represents phenomenon of intelligence and different faces represent different types of properties carrying property. The open eyes means property is activated while close eye means property is inactivated. In spite of carrying properties consciousness they also know how to conduct not only origin of universe but also how to create two different Universe i.e. next creation could be different from this creation. In all, it is automatic system of the universe. The mind realities which are of good properties have devtas face identity (first five faces on both side) and those mind realities which are of bad properties have demons face identity (last four faces on both side). These are named as code PCs or messenger atomic genes. The central face is CCP or Thought script where all thoughts of the universe are banked. It is bank of data of all information s of the universe It is face identity of Anti mind particles as data of all information's of the universe are stored as anti mind particles. It is the Time mind ness (biological clock) that keeps on expressing different thoughts from this thought script (CCP). There are four more faces (black bodies) shown on extreme left and right floating in fire are CPs (translating Atomic genes). That translates the messages and realizes it and reacts accordingly [2].

Participatory science has coined [5] some new words and there are some words which already exist in physics. Both these words are defined here and the definitions are according to participatory science. It has no relation with the definitions given in modern physics.

- **Mass:** The part which gives shape to the smallest mass unit i.e. basics building blocks (B. B. Bs.) is called mass.
- **Matter:** Mixture of fermions and bosons or only bosons which are made up of mass (B.B.Bs) and that is why we realize their shape is called matter.
- **Inertial mass:** Mass (smallest mass units i.e. B. B. Bs) having inertial properties (classical inertia) either absolute rest or uniform motion in straight line is called inertial mass. Or Number of B. B. Bs. Per unit space present in bigger units is called inertial mass. Or Total matter contained by the bigger units or total number of fermions and bosons contained by the bigger units is called inertial mass. Therefore it never changes from place to place.
- **Gravitational mass:** The mass (interacting surfaces) which takes part in gravity (divine energized gravitons theory) interaction (which is due to mind) is called gravitational mass. When gravity interaction increases (number of divine energized gravitons increases) the interacting mass (interacting surface) also increases or

THOUGHT RAY (Quantum entanglement): which is made up of pure atomic genes and then the message goes through phenomenon called first transcription. They come out from brain directly. The other two messages are carried by photons from nucleus of atom to electrons. Here they are modulated on electrical activity of the cell called pacemaker activity. Further they are modulated on actions potentials going towards.

Realizing center: situated in brain stem (RAS) and from RAS to speech area situated in the frontal area. Target B.B.Bs. of the realizing center finally realizes thought effect of O GOD HELP ME. While from speech area message goes to motor cortex again via RAS and from there to vocal cords and finally it comes out as a speech effect of O GOD HELP ME. In layman's terminology formation of the thought ray means PRAYER as shown in Fig 4.

Where Does Prayer Message go?

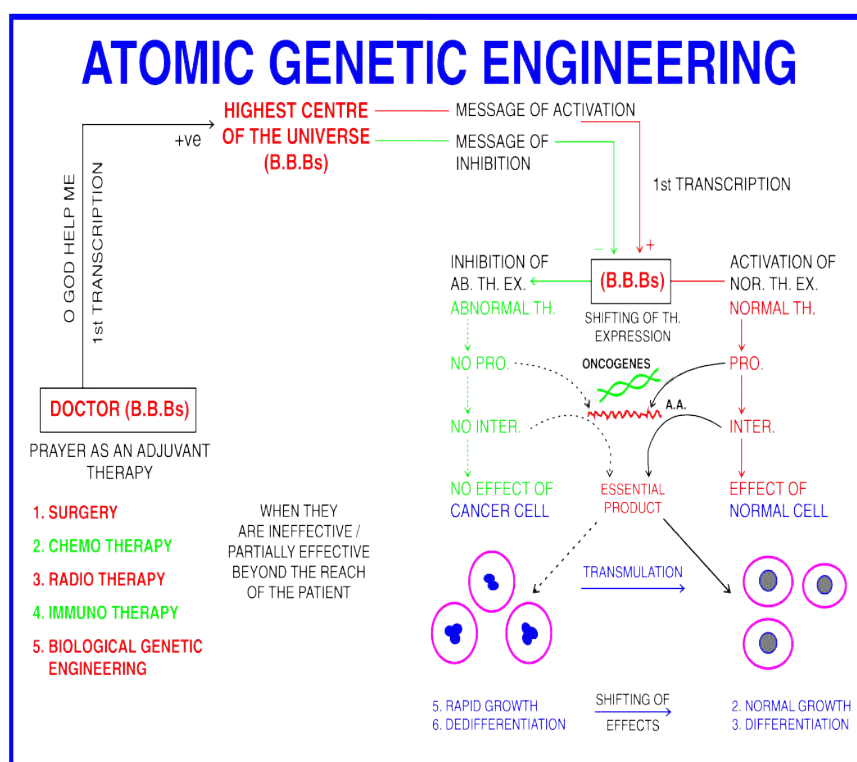

Prayer message goes as shown in Figure 5 to highest center of the universe via first transcription where it is realized and it is accepted, the highest center sends two messages to B.B.Bs working as higher center in cancer cell. These messages are message of inhibition of abnormal thought expression and message of activation of normal thought expression. Having received the messages, higher center stops expressing the abnormal thoughts and it starts expressing the normal thoughts. As a result, there are no more abnormal programmed messages and in place of that normal programmed messages are there. Now the messages have shifted from abnormal (5 and 6) to normal (2 and 3). This shifting of thought expression is called Atomic Genetic Engineering as shown in Figure 4.1.

The changed messages reach to target B.B.Bs. through same route. Having received the changed messages, target B.B.Bs. stop expressing the previous programming and they start expressing the normal programming. As a result the cancer cells transmutate into normal cells. Or diseased cell gets cured [6] as shown in Fig 4.1

Message system of the Universe

Before the origin of the universe [2] nature had only one type of message systems which is called First Transcription. Messages (Code PcPs) used to go from one B.B.B. to another B.B.B. by atomic transcription. Messages were carried by atomic genes (Code PcPs) with very very high velocity. It is the fundamental message system. After the origin of the universe, nature created atoms. It also created one more message system called Second Transcription. Here the message (code PcPs) are carried by photons from one atom to another atom with velocity of light. Thus atoms, molecules, cells, and even individuals talk with one another.

After the formation of the cell, nature created one more system called THIRD TRANSCRIPTION. Here there is a message storage system formed by DNA. There are messenger molecules called mRNA that carry message from DNA script to cytoplasm where the message (code PCPs) is read or translated by ribosome and they work accordingly. Thus the messages reach to enzymes and hormones and finally messages reach to target units. Having received the messages, target units work accordingly. Finally life effects (metabolic) are observed. These three types of message systems are working in the nature.

FINAL STAMP OF SUCCESS TO THE THEORY

A Randomized, Controlled Trial of the Effects of Remote, Intercessory Prayer on Outcomes in Patients Admitted to the Coronary Care Unit

Context Intercessory prayer (praying for others) has been a common response to sickness for millennia, but it has received little scientific attention. The positive findings of a previous controlled trial of intercessory prayer have yet to be replicated.

Objective To determine whether remote, intercessory prayer for hospitalized, cardiac patients will reduce overall adverse events and length of stay.

Design Randomized, controlled, double-blind, prospective, parallel-group trial.

Setting Private, university-associated hospital.

Patients Nine hundred ninety consecutive patients who were newly admitted to the coronary care unit (CCU).

Intervention At the time of admission, patients were randomized to receive remote, intercessory prayer (prayer group) or not (usual care group). The first names of patients in the prayer group were given to a team of outside intercessors who prayed for them daily for 4 weeks. Patients were unaware that they were being prayed for, and the intercessors did not know and never met the patients.

Main Outcome Measures The medical course from CCU admission to hospital discharge was summarized in a CCU course score derived from blinded, retrospective chart review.

Results Compared with the usual care group (n=524), the prayer group (n=466) had lower mean SEM weighted (6.350.28 vs 7.130.27; P=.04) and unweighted (2.70.1 vs 3.00.1; P=.04) CCU course scores. Lengths of CCU and hospital stays were not different.

Conclusions Remote, intercessory prayer was associated with lower CCU course scores. This result suggests that prayer may be an effective adjunct to standard medical care.

These message system are being used by the nature according to nature's need. as shown in Fig. 5.

Conditioned Thought Stimulation and other one is unconditioned thought stimulation.

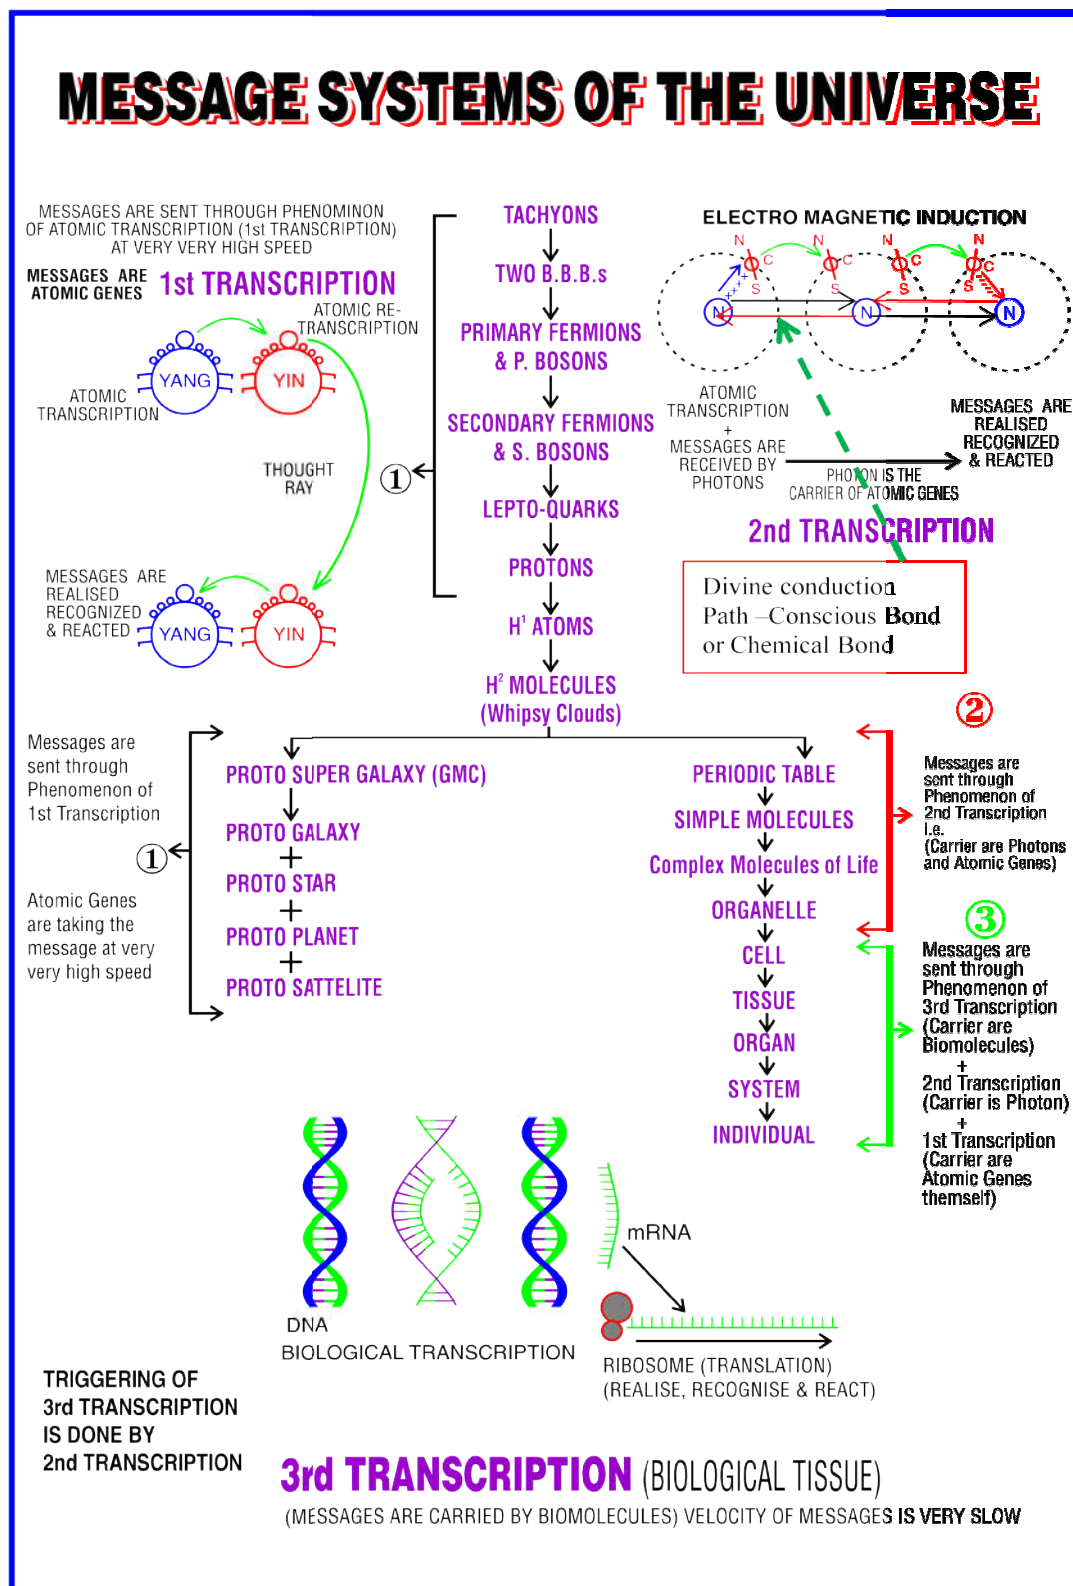

Fig. 5. Messages system of the universe

How does nature work & triggering of normal & abnormal effects

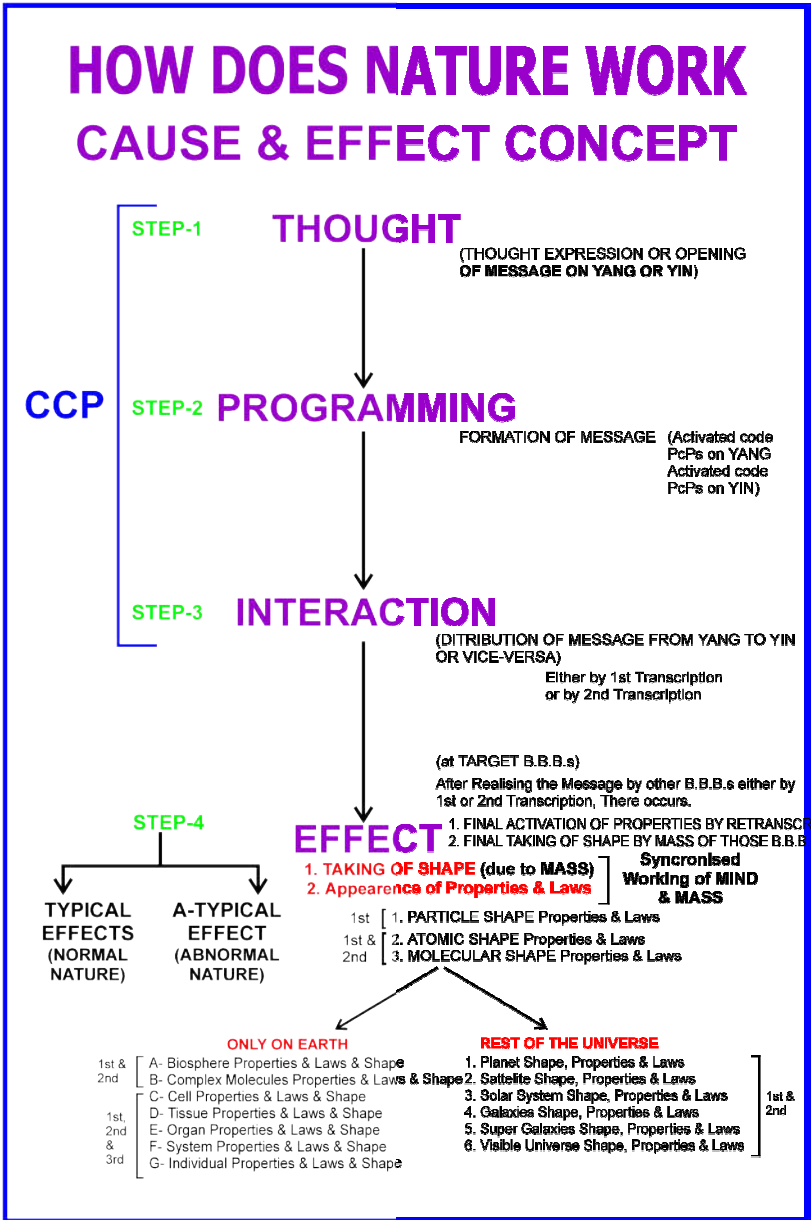

To understand creation physics as shown in Fig 6 and Fig. 7. There are two types of thought stimulation [2]. One is

Stimulation of Thought Expression: There are two types of thought expressions one is **CONDITIONED STIMULATION** of thought expression, and other one is self stimulation of thoughts i.e. **UNCONDITIONED STIMULATION** of thought expression.

At the time of the origin of the universe, all effects got created. The cause of all effects of the universe is Thought expression. These thought expressions were triggered by unconditioned or self stimulated Way. It is the first step and it is followed by Programming or formation of programmed messages by code PCPs. This programmed message moves from higher centers to target B.B.Bs. it is called Interaction. Having received the messages, the mind and mass of the target B.B.Bs. work in a synchronized way so as to produced the effects as thought by a the higher center. If the thought expression by higher center is normal, the shapes, properties and laws produced by target B.B.Bs. would be normal and if the thought expressions are abnormal, the shapes, properties and laws would be abnormal. This is the basic concept of transmutation phenomenon. Finally what we observe is called Effect.

Transmutation phenomenon is seen in particles, atoms, molecules and even in cells. The basic steps of any transmutation remain the same except that the thought expressions differ.

The subatomic particle are made up of more fundamental particles called Basic Building Blocks (B.B.Bs) which are made up of mind and mass. These B.B.Bs are divine in nature with the result they talk with each other by phenomenon called atomic transcription and translation (thought expressions). The triggering of broken symmetry is caused by atomic transcriptions. Unless the atomic transcriptions occur, subatomic particles could never exhibit phenomenon of broken symmetry. So the broken symmetry is never spontaneous.

Divine Mechanics –
Or
CCP

Fig. 6. Divine Mechanics – How Does Nature work ?

Appearance of new shapes. properties and laws is called Transmutation. The first three steps are collectively called CCP. During transmutation process if CCP is written, it does mean that unless the thought, programming and interaction take place, nature cannot transmutate.

It is being mis understood that sub atomic particles do have spontaneous activities as far as broken symmetry is concerned. Hence the Nobel prize physics 2008 awarded to this work is too early to give prize.

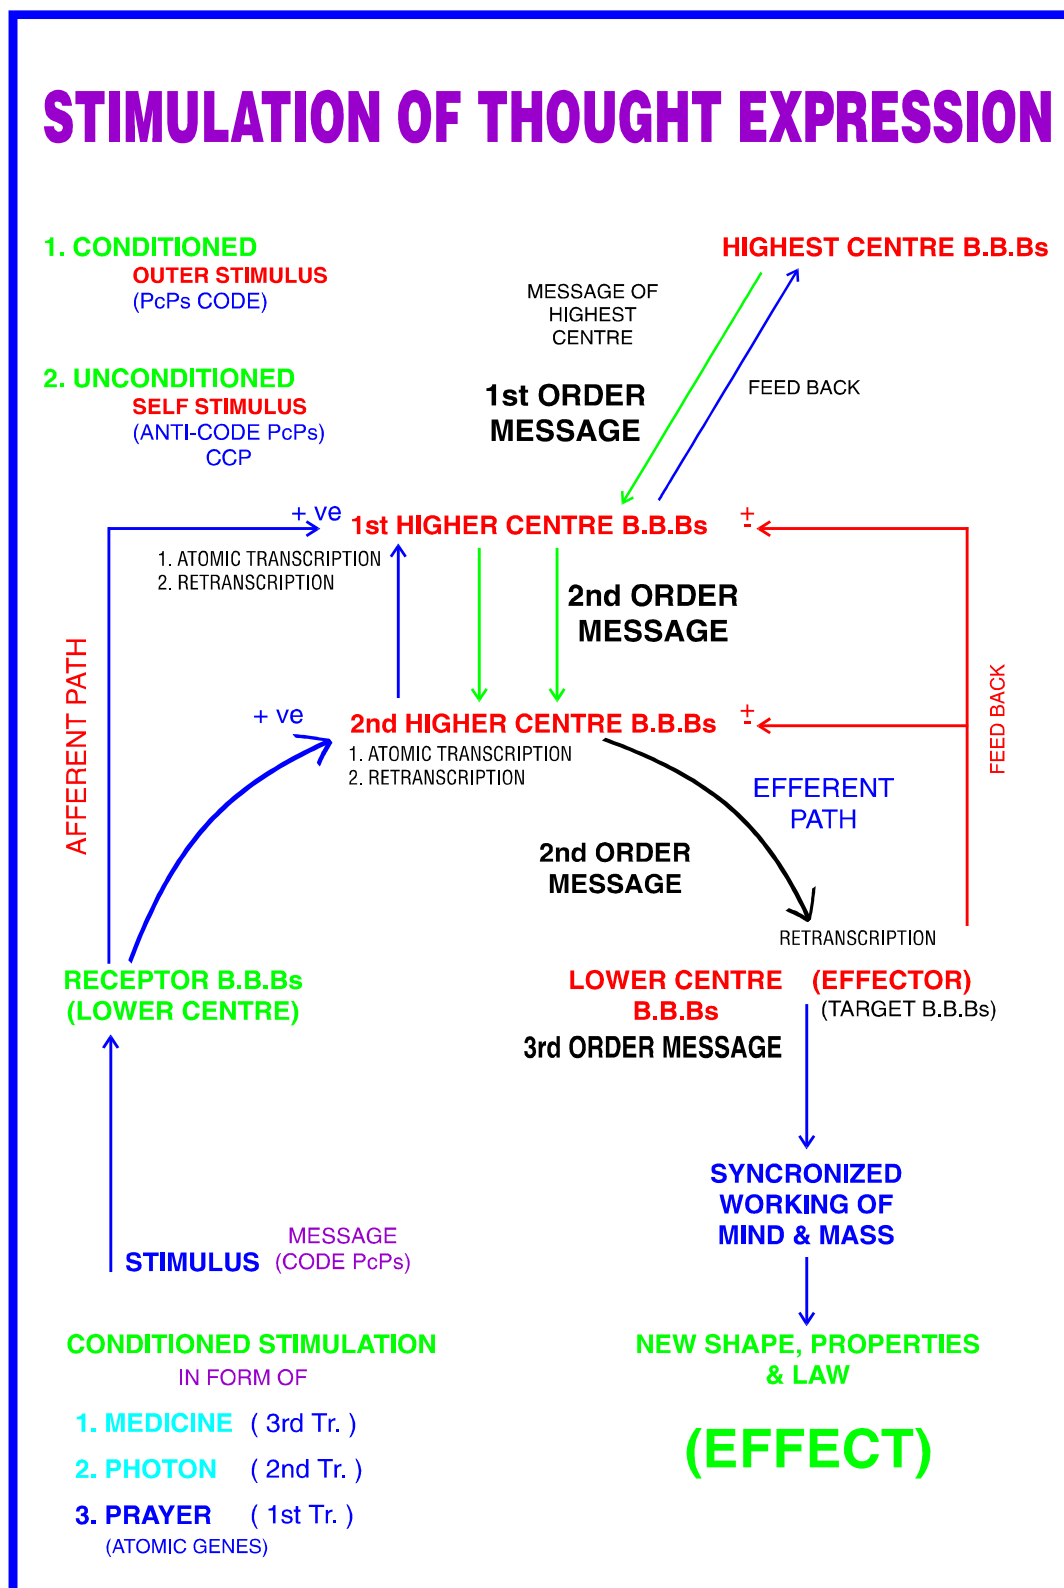

Fig. 7. Conditioned and Unconditioned thought expressions

1.7 Message network of the Universe (Feed Back Mechanism and different centers of the Universe)

With the origin of universe, nature first created primary units i.e. primary fermions (gravitation) and primary boson, these primary units are equipped with one higher center (one B.B.B.) and rest of the B.B.Bs. are working as lower centers or target B.B.Bs. [2] After primary units, nature created secondary units

i.e. secondary fermions and secondary bosons. Similarly nature created tertiary units (lepto-quarks) and then quaternary units (protons & neutrons). Each unit is equipped with higher centers, lower centers and target B.B.Bs. After quaternary units nature created atomic units, molecular units, complex molecules of life units, organelle units, cell units, tissue units, organ units, system units and individual units. Each unit is equipped with higher centers, lower centers, and target B.B.Bs.

Similarly nature created satellite units, planet units, solar system units, galaxy units, super galaxy units, dark matter layer unit. These units are also equipped with higher centers, lower centers and target B.B.Bs. Thus our universe is divided into different units and each unit is equipped with higher and lower centers. All higher centers are under control of highest center of the universe by efferent paths. This efferent path is made up of first transcription. Higher centers can send messages to highest center of the universe by afferent path or feed back path. Thus highest center of the universe is well informed about all effects of the universe.

Messages can come from lower centers to higher centers and from higher centers to highest center of the universe via afferent path. The highest center of the universe can send messages to higher centers and from higher center to lower centers. There is an inter unit message network also which is made up of first, second and third transcription depending upon the nature's need. Thus the entire universe is under control of highest center of the universe. Highest center can change any programming programmed by it during pre creation era as shown in Fig. 8.

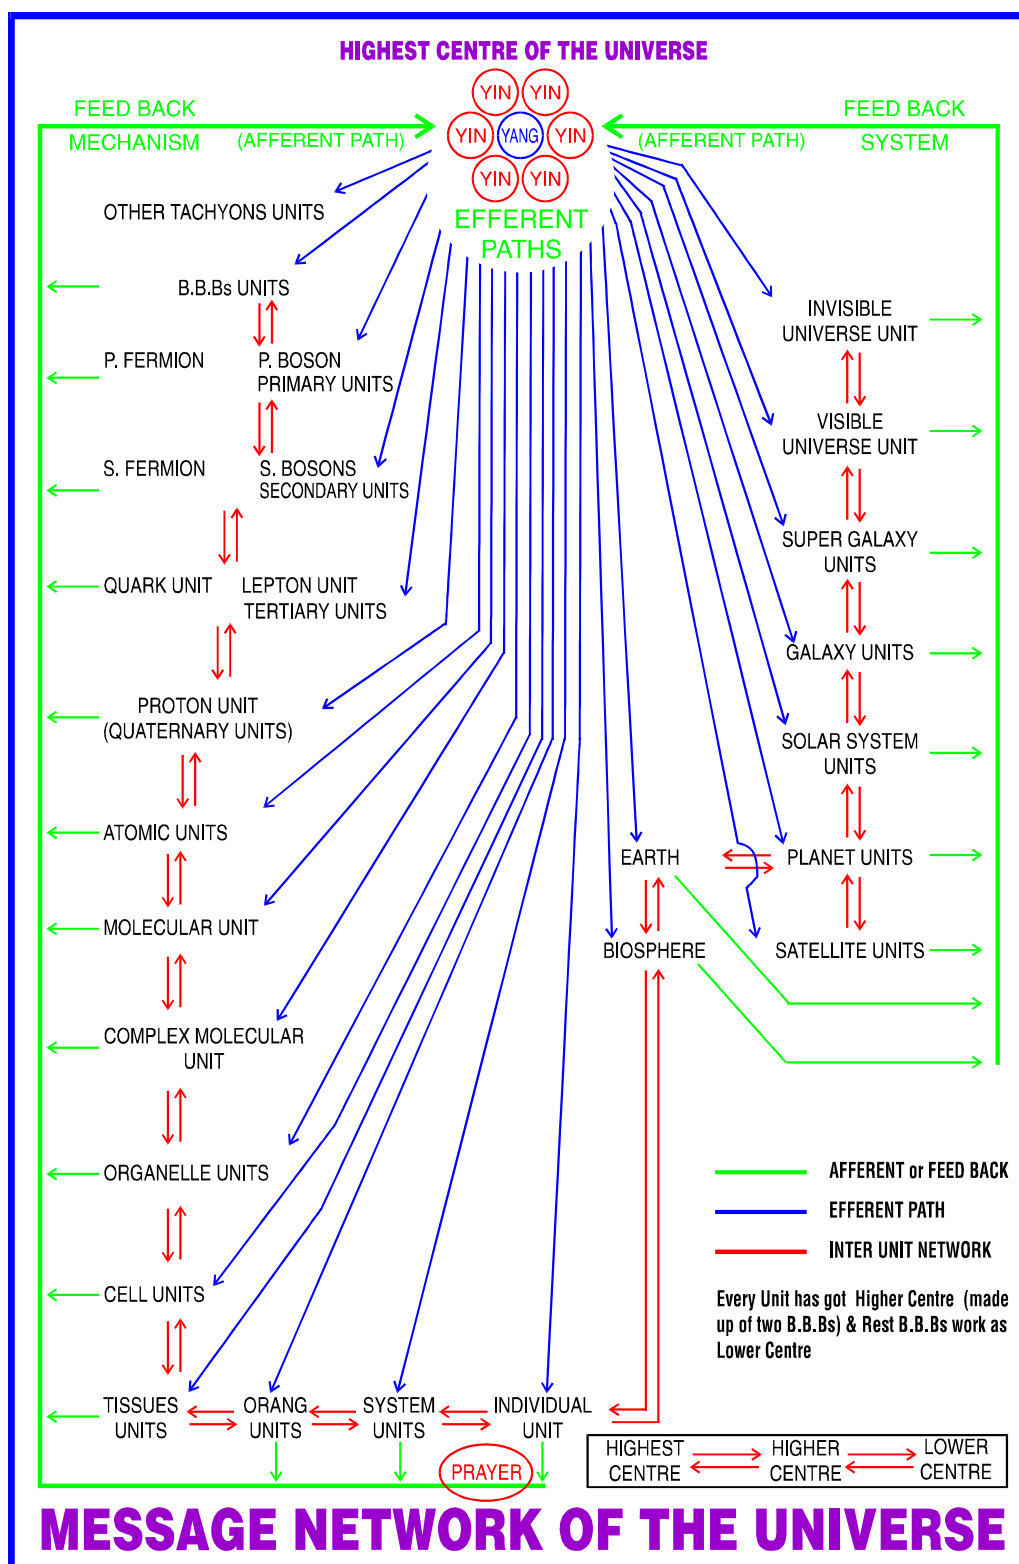

Fig. 8. Messages Net work of the Universe

1.8 Origin of the universe [7]

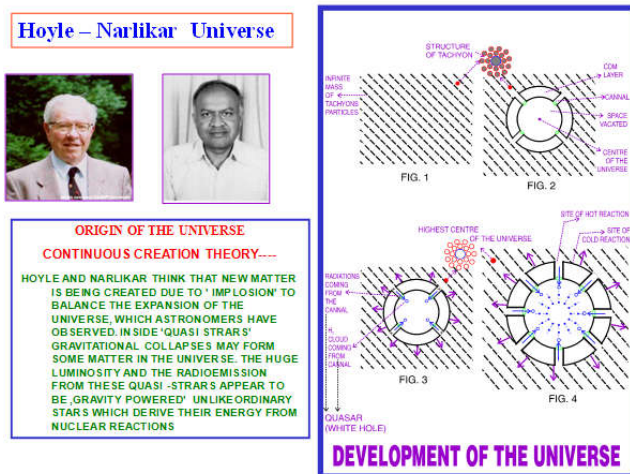

Fig. 9. Development of the Universe

Before the origin of the universe, these Basic Building Blocks (B.B.Bs) as shown in Fig-3 were in the form of tachyons as shown in Fig. 9. [7]. It means that at that time the tachyons were everywhere in the universe. Let us look at the structure of tachyons; it is made up of one matter B.B.B. (YANG) and many energy (YINs) B.B.Bs. Initially out of the infinite tachyons, one became the highest center of the universe. Messages used to go from highest center to rest of the universe and messages could come from rest of the universe to highest center of the universe by atomic transcription. Thus highest center had fed its thought to rest of the B.B.Bs. that would take part in creation - that they would express only those thoughts to give desired effect as wished by the highest center of the universe. So all B.B.Bs were informed about their role before creation of the universe.

In pre-creation era programming of the future universe was done by highest center of the universe. Our universe is oscillating and it is a divine universe. It means that it has a creation phase and a destruction phase. During creation phase tachyons break into their B.B.Bs. and from these B.B.Bs, formation of fermions and bosons take place as shown in Fig 3.1. After the creation phase, destruction would start and in this phase all created particles would again break into their B.B.Bs and finally tachyons would form. At the time of origin of the universe, all the effects got created. These effects are taking of different shapes and appearance of properties and laws. All these effects are studied in various branches of science. With the origin of the universe, nature first created a sphere of Cold Dark Matter (C.D.M) and canals in it. With the result space got created. At the other end of the canals, hot reaction started (the relics are back ground radiations 2.7 degree K of our hydrogen clouds). As a result hydrogen clouds and lot of radiations were created. The empty canals were filled by these hydrogen clouds and radiations and thus Quasars appeared in the universe. Simultaneously C.D.M. layer started expanding and clouds and radiations kept on coming in this closed universe as shown in Fig. 9. With the passage of time more and more C.D.M. layer formed, more and more quasars formed. The hydrogen cloud came in this closed universe. They started running towards C.D.M. layer as they were attracted by the gravity of C.D.M. layer. Those clouds, which were nearer, moved faster than those, which were away from CDM Layer. The hubble law, can thus be explained. With some more passage of time, clouds were joined to form GMC (Giant Molecular Clouds). Later by self-gravitation different proto stars, proto planets, proto satellites were formed. Finally stars became bright and thus bright galaxies appeared in this universe. Our universe is still in expansion phase and creation is still going inside quasars. It is to be remembered that highest center of the universe does not come in the visible universe.

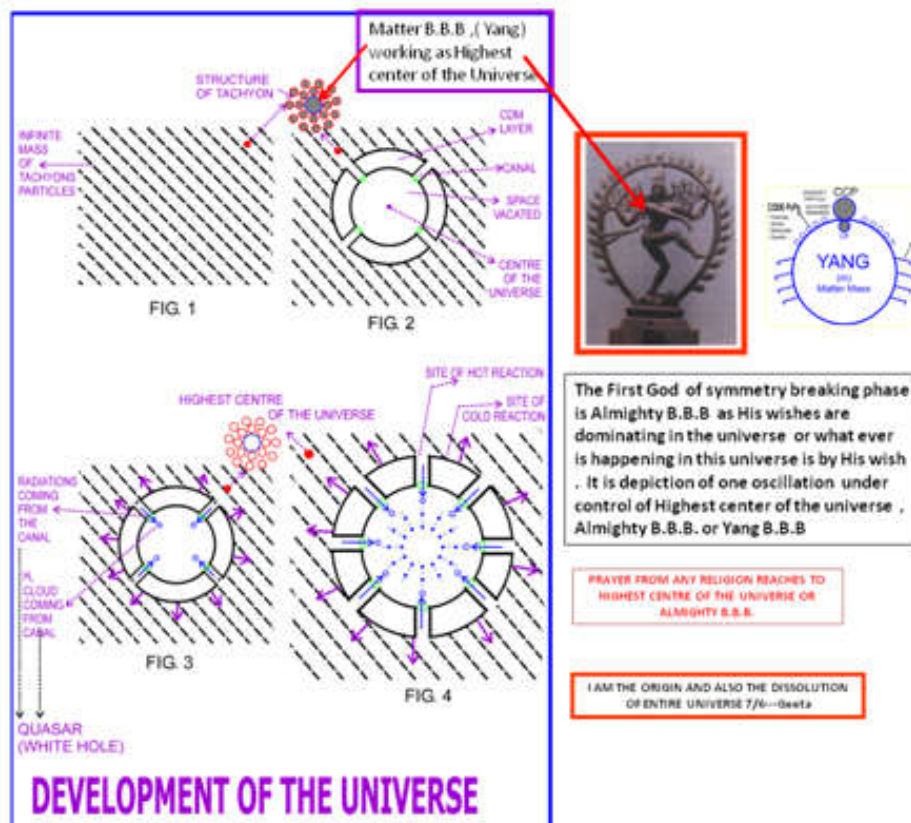

Figure 9.1. Hoyle Narlikar Universe

It keeps on receiving the messages by atomic transcription and it has power to change any programming programmed by it during pre-creation era. It is the atomic genes which constitutes mind part of reality. Mind incorporation in physics is awaited as theory of every thing is not yet investigated. I have investigated theory of every thing (ToE) and I found that while studying unified theory at the time of origin of the universe by Hoyle Narlikar universe, it was mind reality that triggered symmetry breaking phase. It is mind reality that triggers oscillation phenomenon of the universe.

It is the mind reality which is behind perfect cosmological principle. There is nothing like artificial intelligence in the universe. These mind particles constitute intelligence of the universe that controls the deterministic order of the universe. It is the mind reality behind all effects of the universe. But this is not our mind rather it is mind of Almighty B.B.B (Yang B.B.B or matter B.B.B. or Male B.B.B working as Highest center of the universe). His mind could be manipulated by prayer only. As shown in Figure 9.1 and 9.2.

1.10 Divine Mechanics and Brain Computation

Learning and Memory and information s (Code PcPs) Net work in Brain [10]

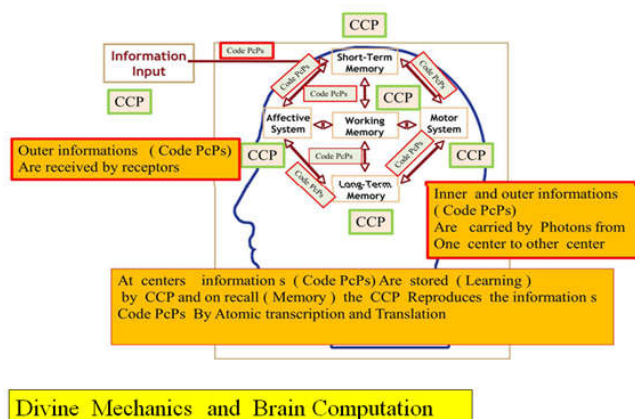

Fig. 12. Divine Mechanics of Brain Computing System – Learning and memory

At all steps, these are B.B.Bs (B-Bit) that are responsible for information's control and triggering. If CCP is written it means unless atomic transcription and translation occur, brain cannot have learning and memory triggering and control and it is called Divine mechanics of Biology and it is life. These are higher thought expressions of B.B.Bs. In Bits of classical computers and qubits of QC, the thought expressions are lower and different but the mechanics (DIVINE) remains the same. As shown in Fig. 12.

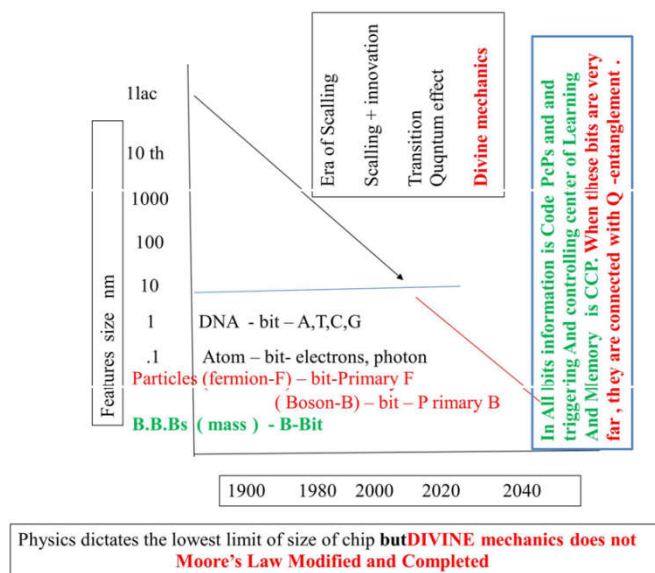

Fig. 13. The Theory of Computers and Brain are same – DIVINE MECHANICS

(Structural and Functional smallest Bit (mass) is B-Bit of the universe and the Divine Mechanical Unit is CCP, Code PcPs and CP.) DIVINE MECHANICS The Theory of Computers and Brain is SAME as shown in Fig. 13. Physics dictates the lowest limits of the size of chips [11]. But divine mechanics does not. Hence the bit is a typical unit of information. ((Classical and Quantum Bit) is wrong and to describe informations by adding qubit is also illusion as in complicate

system ,it is the different thoughts expressions that describe informations . Informations are separate (Code PcPs) and bits (Electron of transistor) qubits (electron of diamond crystal) are separate. At DNA level the bit is nucleotide (A,T,C,G) and at Atomic level the bit is photon and electron , at particle level (secondary fermions and secondary bosons) the bit is primary fermions and primary bosons and informations are still code PcPs and at B.B.B level the bit is B.B.B (Yang mass and Yin mass - B- bit) it self and the information is carried by Code PcPs but at all level of all bit units the information storage system is CCP (Physiological arrow of Time) it never dies even after destruction of the universe. Hence informations are eternal. In computers, Bit is a structural configuration that describes informations of the system and informations are in form of Code PcPs. The working of the bit is triggered and controlled by thoughts of higher centers that form that bit. If the bit is classical (transistors of chips) the effect is different. But if the bit is qubit with entanglement the working is triggered and controlled by thoughts of higher center that form that crystal. In both the effect of describing informations would be different. One is classical (thought expressions are fixed and limited) and other one is quantum (thought expressions are changing and morewide to describe the more wide complicated system to have fast results). In life sciences in Brain the bit is again Photon and the informations are Code PcPs and they are triggered and controlled by CCP of higher centers that is triggered by DIVINE MECHANICS.

In life sciences the CCP (cryptography) of B-bit expresses informations (Code PcPs) which were not fed like speaking Lie and unlike Bit of classical computer and qubit of QC it shows phenomenon of forgetfulness and IQ phenomenon (mental age /real age). It is Higher functions of B.B.B or B Bit and it is life. Hence there is difference in some aspect of DIVINE MECHANICS\ of Computers computation and Brain computation.

Structure

2.1 Answering Who am I ?

1. I am the origin of All. Every thing evolved from Me. (Two Basic Building Blocks -- made up of Mind (CCP, Code PcPs and CP) and Mass)

2. I am Time: a Psychological arrow of time.(inner informations, they never die -- immortal -- even after destruction of universe) -- eternal reality --- CCP, code PcPs and CP) b Cosmological arrow of Time (Outer informations (Code PcPs) coming to us - mortal - created with origin and die after destruction of the universe -- under control of Almighty B.B.B) c Thermodynamics Arrow of Time (Same as Cosmological arrow of Time)

3. I am science of self knowledge: (Informations Code PcPs created by Almighty B.B.B that are read in different sciences and mysticism -- informations are true or False)

4. I am the origin and dissolution of entire universe (Almighty B.B.B - Yang B.B.B, working as highest center of the universe - Prayer reaches to this B.B.B)

5. I am Life and death: (Higher thought expressions of two B.B.Bs is Life)

2.2 Defining God: God has been classified in five ways – Scientific Names

1. Primary God --- Two basic building blocks
2. Secondary God -- Almighty B.B.B. (Yang working as Highest center of the universe - The creator B.B.B)
3. Trinity (secondary God) Avatar of Almighty B.B.B (Almighty in flesh form on Earth)
4. Tertiary God - Creation (sun moon, galaxy, creatures etc (made up of primary God by thought of Almighty B.B.B)
5. Tawhid - One Absolute I -- made up of Infinite Tachyons -- made up of Two basic building blocks - symmetry phase of universe.

2.3 How to know Religion “I” Or Satyam Shivum Sundarum or Two God Particles

What eye sees is different (illusion) than what brain sees (truth). In science hypothesis is made and that hypothesis is confirmed by observation. Two God particles hypothesis is based on observation that Super unification is not proven yet. When photo depiction of two God particles is made by brain, it was same as made by Almighty B.B.B thousands of year back by clue pictures given by Hindu spiritualism (Fig 1). what Idol worship (Eyes see - sculpture – statue) is defined before the research of Two God particles is illusion (Eyes see - sculpture – statue, set of informations Code PcPs) as the real idol worship is worship of two God particles which constitute big Idols (Eyes see - sculpture – statue, set of informations Code PcPs) (Brain sees-Two God Particles – Not set of informations

Fig. 14. Scientific Nomenclature of God

But no religion discussed Primary God (two God particles) made up of mind and mass - the eternal structure or body, as Primary God (Two God particles) is the subject of research through science, and it would be researched by science only. Thus the Geeta's secret is the same as Quran's secret and Bible's secrets . The Geeta's secret is – I am the origin of All . Every thing evolved from Me – 10/8

Code PcPs). On this basis the all created units (sun, moon fire, rain) in created universe are also worshiped as idol worship as they are made up of these two God particles, Though they do not look as idol. Same is true for idols of trinity. (Lord Jesus, Lord Ram etc) as idol concept started with idol of these trinities since two God particles idol concept was not written anywhere in books before their search by me. by science. Big Idols worship would end with end of Universe. But Idol

worship of B.B.Bs (Not set of informations Code PcPs or originator of different sets of informations Code PcPs or Satyam Shivum Sundarum) would persist even after destruction of universe.

2.4 Order of Almighty B.B.B or Modification in Article 25 of Indian Constitution Fig. 15.

Freedom of conscience and the right freely is Restricted as No one on this Earth Knows right knowledge as regard God except University of god (UOG). You have to profess, Practice and propagate only those thoughts which are taught by UOG only.

1. To profess, (admit) - One cannot admit wrong believes as regard GOD -

Wrong believes - 1. God is One

2. God has No picture depiction.
3. Idol worship is fictitious worship at highest consciousness.

Right Believes 1. There are TWO God --or Two God Particles - Or Two Basic Building Blocks .

2. It has Photo depiction of Male and Female Called Stayam Shivum Sundarum
3. They are smallest Idols of The universe And Their Idol worship persist even after destruction of the universe

2. To practice (perform worship etc) All religions do IDOL worship of Two God particles in different ways. Unless brain sees idol of two God particles during worship, worship is incomplete.

3.To propagate religion (Spread)

1. Science of prayer - Pl read Introduction 1.4 onwards

3. V.M.Das, Idol Worship Means Worship of Two Basic Building Blocks (Not Set of Informations Code PcPs), The smallest Idols Of The Universe. Fundamental Belief Of All Religions Of The World Is Same. On This Fundamental Basis Secret Of Gita, Quran and Bible is Same. Admiring Of Almighty B.B.B Idol (Allahatala- Creator of All Sets Of Informations Code PcPs) is Allaha Ho Akbar. *International Journal of Information Research and Review Vol. 04, Issue, 09, pp 4537-4557, September (2017)* are to be spread by all religions of the Earth . Rest teaching of religions as regard God has been restricted by Almighty B.B.B

2.5 Krishna Consciousness and Religion "I" connection (Two God Particles)

Now coming to the amicable solution of Ayodhya issue --it could be resolved by knowing in detail about "Science of Prayer" and "Know Allaha in the light of Science". Fig 17 and Fig 18

Order of Almighty B.B.B. (First Order of the Universe – Quantum Entanglement)

1.Those who donot want Mosque to be built, they are insulting Primary God (Two God particles). Those who donot want Idol worship of Lord Ram (Set of informations Code PcPs) in Mosque (Set of informations Code PcPs) are insulting Allaha in Trinity form as Trinity's worship (Almighty B.B.B. in flesh form) is Allaha's worship. In such dilemma both Hindu and Muslim should equip themselves with knowledge of "Science of Prayer" and "Know Allaha in the light of Science" and they should reform wrong thoughts to right thoughts along with repent themselves and do priyashit (self reformation). Because wrong knowledge keeps them apart and right knowledge

evokes both of them (Hindu and Muslim) to pray Almighty B.B.B under one roof.

Krishna Consciousness and Islam connection

Fig. 17. Krishna consciousness and Islam connection

Krishna (Trinity – Allahatala as Trinity – Secondary God) Consciousness. The meaning is that who is not kayal (do not admire) of Krishna consciousness (Set of informations Code PcPs), is Kafir (Atheist or disobedient). What is Islam? Kafir hai wo jo kayal nahi islam ke.

Lam blakhai gesu mere Ghanshyam ke - Kafir hai wo jo kayal nahi Is-lam ke. The meaning is that who is not kayal (do not admire) of Krishna consciousness, is Kafir (Atheist or disobedient). The meaning that Krishna told in Quran (Gita) That - I am Islam. I am Quran and I am Allahatala. (Set of informations Code PcPs)

Translation

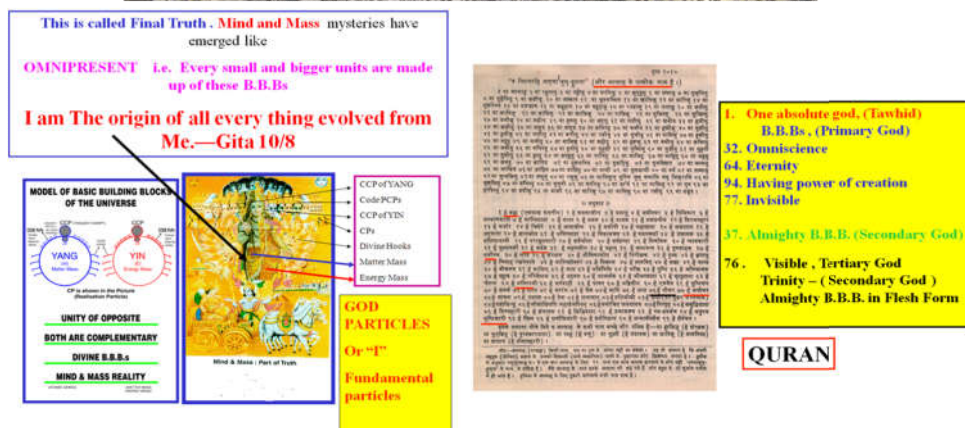

I am the original generating cause of all causes, everything emanates from Me; comprehending this the spiritually intelligent endowed with devotional sentiments become devoted unto Me.

OR

“Every Thing Is Allah, Every Book Is Quran, Then All Worships Are Allah’s Worship.”

Religion “I” and Almighty B.B.B., The Creator of Universe

Muslim do believe that Allaha means The Creator only. After researching 99 names, we found that Allaha means – Primary God, Secondary God, tertiary God, trinity, and Tawhid. in the light of science. This portrait represents Tachyon particle (One yang B.B.B and many Yins B.B.B) apart from Creation and Destruction of universe under control of Almighty B.B.B. The admiring of this Almighty B.B.B (Allahatala) is Allaha ho Akbar.

Every Thing Is Allah, Every Book Is Quran, Then All Worships Are Allah’s Worship.”

Thus the secret of Gita, Quran and Bible is same. The secret of Gita is – I am the origin of All and Every thing evolves from Me -- 10/8

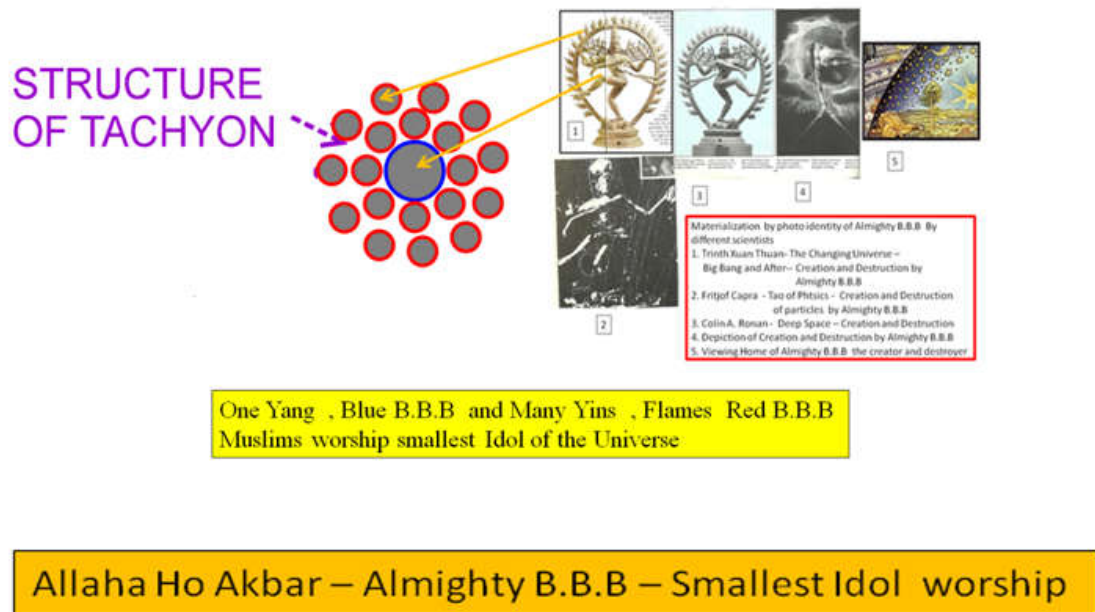

Fig. 19. The Admiring of Almighty B.B.B (Allahatala) the Creator of the universe is “Allaha Ho Akbar” made up of two God particles or Tachyon (Religion “I”)

2.7. Religion “I” and Worship of Tertiary God (Set of informations Code PcPs or Allaha) is also Idol worship

Fig. 20. Worship of Tertiary God (Set of informations Code PcPs or Allaha) is also Idol worship (as these are made up of smallest idols –Two God Particles (Religion “I”))

Conclusion

Article 25 of Indian constitution has been modified by order of Almighty B.B.B. Freedom of conscience and free profession, practice and propagation of religion has been restricted or banned. No body on Erath could spread wrong believes of God like - God is One. God has No picture depiction. Idol worship is fictitious worship at highest consciousness. Instead of that one would spread right scientific believes like.

There are TWO God --or Two God Particles Or Two Basic Building Blocks .It has Photo depiction of Male and Female Called Stayam Shivum Sundarum. They are smallest Idols of The universe and Their Idol worship persist even after destruction of the universe. All religions are unified to Religion “I” as it would persist after destruction of the universe. Hence what eyes see is different (illusion) than what brain sees (Truth) and the truth is -- One absolute (Infinite) Universe (I) , One Teaching Of Two God Particles (I) And One Religion “I” that will persist even after destruction of

universe. Hence teaching regarding God in different religions (Hindu, Islam and Christianity etc realizations) are illusion. They donot teach about Two God Particles – The Real eternal God Particles. Only Two God Particles “I” will persists even after destruction of the universe. All religions do IDOL worship of Two God particles in different ways. Unless brain sees idol of two God particles during worship, worship is incomplete.
